

healthcare furnishings

|durfold|

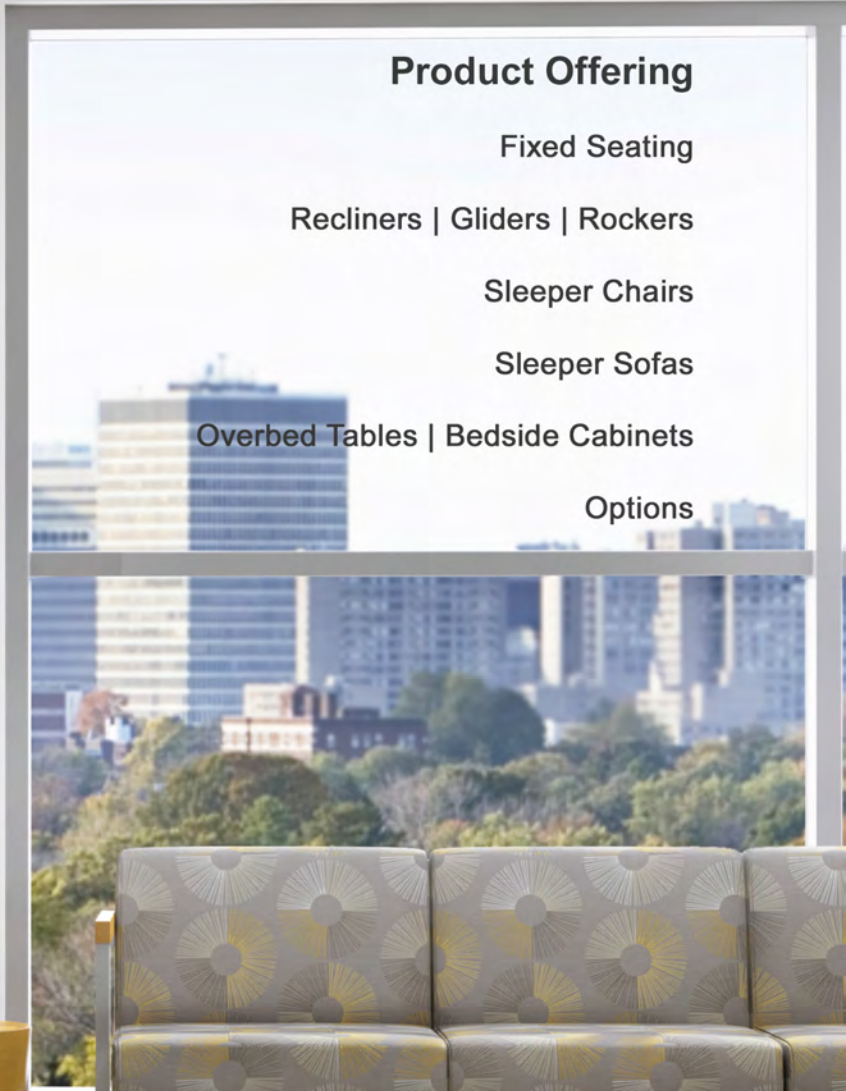

The healthcare market has dramatically changed since Durfold opened its doors in Jackson, Mississippi and just as the times have changed; so have we. For many years, we have been responding to the needs of an ever-changing market with furnishings of the highest quality, durability and affordability.

We have continued, even through the most recent market changes, to resist the temptation to export our craft overseas and we believe that our company is proof that what was once conceived and created in this country can operate and flourish today, as well.

We invite you to experience our products, as well as, our dedication and service and should you find that one of our pieces is what you are searching for, then you will be pleasantly surprised at how affordable they are.

Thank you for considering Durfold for your healthcare furnishing needs.

options for recliners

polymer arm caps - in lieu of wood arm caps, polymer caps provide an integral skin material that is easy to clean. other attributes include excellent tactile properties and an ability to be 99.5% antimicrobial.

patient alarm pouch - soft shell pouch in matching fabric and provided with vinyl fabric inner-lining for ease of cleaning. all seams receive sturdy stitching and connected to chair instead of stitched into chair for ease of servicing or replacement.

i.v. pole - aluminum pole with two light gray, plastic hooks. connected to chair with stainless steel bracket with adjusting knob for ease of setting various heights.

patient stability attachments - marine grade, chrome plated zinc straps located on both sides of back and arms for assistance in stabilizing patients to avoid unintentional self-injury or harm.

|durfold|

options for recliners

tray table - high density polyethylene surface for ease of cleaning and durability with chromated steel bracket rated for 44 lbs and two additional steel support hinges. tray has solid surfaced top with recessed cup holder and spill-guard edging.

foot tray - textured high density polyethylene surface for ease of cleaning and durability. connected with 1/4" steel flat head elevator bolts and supported on steel tubing with non-marring swivel caster. this option is available for the rt models only.

push bar - stainless steel tube with polyamide glass ball reinforced shanks. component width is approximately 16"

luminescent sleeves - sleeves are energized by light through embedded non-toxic crystals that glow in dark environments. ideal for patient safety and handling around sides of chair.

foley bag holder - marine grade, nickel plated brass fitting sized for up to 1 1/4" x 3/8" opening.

integral head pillow - shaped head pillow for extra support built into back so that pillow can not be separated from chair and ease of cleaning and sterilization.

Fabrics

Durfold would be happy to assist you in selecting the perfect fabric to compliment your space, as well as, obtaining samples for your review. You can also contact your sales representative to receive our current grading information to ensure that your budget demands are considered.

Textile Partners

Our textile partners are provided below and Durfold can coordinate the purchase, inspection, and receiving of these products to ensure a timely completion for your order. If you need an additional textile source considered, please forward the textile supplier information to us and we will be happy to coordinate further with them.

Wolf Gordon

Fabric Availability

Due to ever-changing inventory levels of textiles from our supplier's distribution centers, fabric availability may extend the production time to complete your order beyond our typical lead times.

Fabric Application

Durfold will attempt to match visually prominent patterns and reserves the right to orient patterns on our products as we deem appealing. Typically, fabrics will be fabricated with dominant elements or stripes oriented vertically regardless of how material is oriented on the fabric bolt. Customer can provide a written directive authorizing Durfold to orient pattern so dominant elements or stripes run horizontally. Durfold reserves the right to reject textiles which we believe unsuitable for application on our products.

Cleaning and Guarantee

We would refer you to the textile supplier's specific cleaning recommendations and instructions of the fabric you are considering to ensure that the fabric maintains its appearance and properties. We would also encourage you to only select a fabric with cleaning instructions and requirements that are acceptable to you prior to your final selection. Further, we would discourage utilizing cleaning regimens that conflict with the textile supplier's protocols, regardless of whether the cleaning regimen in question stems from recommendations of a particular cleaning product that is marketed to be used in healthcare settings. Durfold cannot guarantee fabrics for colorfastness or wearability, and will only extend the guarantee that the textile supplier provides to us.
